

Tree Risk Assessment Qualification Renewal Course - Online

ABOUT THE COURSE

The ISA Tree Risk Assessment Qualification (TRAQ) program provides an opportunity for professionals in the arboriculture industry to expand their knowledge through education and training in the fundamentals of tree risk assessment. This qualification promotes the safety of people and property by providing a standardized and systematic process for assessing tree risk. The results of a tree risk assessment can provide tree owners and risk managers with the information to make informed decisions to enhance tree benefits, health, and longevity.

The Tree Risk Assessment Qualification Renewal Course - Online is a TRAQ refresher course, with five hours of online instruction, as well as, online examinations. Current TRAQ holders may complete the TRAQ Renewal Course as early as 18 months prior to your qualification expiration date.

COURSE CONTENT

Tree Biology and Mechanics: Participants will learn how to assess wood structure, decay, and tree mechanics, and evaluate their impact on likelihood of tree or tree part failure. Participants will

also learn how to identify and assess defects and conditions that may affect likelihood of failure.

Tree Inspection and Assessment: Participants will learn about types of targets, assess the likelihood of a tree or tree part impacting a target, and estimate the consequences of tree or tree part failure. Participants will also learn how to assess site factor that may influence likelihood of failure.

Data Analysis and Risk Categorization: After learning the tree and target factors that must be assessed, participants will combine likelihood of failure, likelihood of impact, and consequences of failure to derive a risk rating. This rating helps the assessor communicate tree risk to clients and risk managers, and allows comparison of risk levels between trees.

Risk Reporting: Participants will learn skills for clearly communicating tree risk to clients, both in written and verbal reports. Participants will also learn about the key components that should be included in a report after completing a tree risk assessment.

TREE RISK ASSESSMENT QUALIFICATION INFORMATION

The Tree Risk Assessment Qualification is valid for five years from the date the TRAQ exam is passed. The qualification holder is required to retake the course and pass the exam every five years in order to maintain the qualification.

COURSE ELIGIBILITY

To be able to register for the TRAQ Renewal Course- Online you must hold a TRAQ credential. You may complete the TRAQ Renewal Course as early as 18 months prior to your qualification expiration date

COURSE TECHNOLOGY REQUIREMENTS

- Ability to view Zoom Meetings/Webinars
- PC/Mac/Tablet with Webcam, Microphone
- Online Proctored exam requirements:
<https://home.pearsonvue.com/isa/onvue>

WORKSHOP DATES AND LOCATIONS

TRAQ Renewal Course -Online - Zoom Meetings
Wednesday, 1 December 2021
8:30am EST - 2:30 PM EST

Hosted by **Indiana Arborist Association**

REGISTRATION Fee*:

ISA Member	\$220 USD
Non ISA Member	\$260 USD
Exam Retake:	\$150 USD

*Course registration fee includes electronic study materials and online exam fee. Exam retakes must contact ISA Headquarters to register.

Registration Deadline:

Monday, 1 November 2021

How to Register:

Visit www.indiana-arborist.org to register. Contact Lindsey Purcell at lindsey@indiana-arborist.org for questions.

Participants are asked to have their Tree Risk Assessment Manual accessible during the Online instructional training.
